

Neue Spielgeräte für die Academy Munyu

Seit September 2017 gibt es endlich Spielgeräte in der Mary Magdalene Academy in Munyu. Hier ist ein Bericht von unserem Mitarbeiter James Gichuru Njenga:

Wir konnten Mittel für eine Schaukel, eine Rusche, eine Wippe, Bälle und ein Volleyballnetz bereitstellen. Die Spielgeräte wurden in den Maria Magdalena Sheltered Workshops hergestellt.

Weil in Kenia niemand unseren Namen „Verein Hilfe zur Selbsthilfe Munyu/Kenia“ aussprechen kann, haben wir eine entsprechende Übersetzung gefunden: OASA, Organisation for the Assistance in Selfhelp Activities.

26TH SEPTEMBER 2017

GREETINGS FROM MUNYU

I write a brief report from the Academy Munyu on the development of the projects which are ongoing. I also thank you for the continued support to our academy projects.

PLAYING EQUIPMENT

The children of St Mary Magdalene Academy have been very grateful for the playing equipment which were donated by OASA. I visited the pupils on Friday and they were very much excited during the games time. There is playing equipment suitable for each pupil. I include some photos from the visit.

STAIRCASE AND COMPUTER ROOM CEILING

We received the money for the second stairs and the ceiling construction. The work continued until the school opened. The stairs are to be completed by the end of the month with a roof on top. The ceiling is also to be put up and we hope it will be done soon. I include some photos from the staircase construction.

I wish you all the best in your work!
Yours

James Gichuru Njenga
